Last updated: July 1, 2026 · 20 sub-processors

This is the authoritative list of the third-party services ("sub-processors") that may process personal data to operate SimplyPrint. It is referenced in our Privacy Policy and our Data Processing Agreement (DPA, Section 8.2 and Appendix B). Personal data is stored in the EU by default; where a provider is outside the EU/EEA, transfers rely on the EU-US Data Privacy Framework and/or the EU Standard Contractual Clauses (2021) with supplementary safeguards.

Reading this list: providers marked **EU/EEA** involve no third-country transfer. Features marked **Opt-in** are off by default and only run if the customer enables them. We give account owners advance written notice before a new personal-data sub-processor goes live, and they may object on specific grounds (DPA Section 8.2). To request our DPA or a transfer impact assessment summary, email legal@simplyprint.io.
